INTRODUCTION

ALTERATION IN PRICES.

WE reserve the right to alter the prices and terms stated in this catalogue at any time without notice, and all parts are subject to prices and conditions ruling at time of delivery.

Proprietary articles are subject to Makers' Prices.

SPECIAL NOTE.

In ordering, will our clients kindly note that it is essential to quote the detail number shown in the list, **and also the commission number and suffix letter if any, batch number and unit number** which will be found stamped on Oil Filler Cap, **and send remittance to cover cost and carriage.**

When remittance is not sent, the goods will be invoiced PRO FORMA, or sent C.O.D. By following this method, the prompt execution of the order will be facilitated, and the possibility of despatching wrong details reduced to a minimum.

DELIVERY. At Works, Coventry.

Carriage and packing extra.

All parts sent for repairs, or as pattern, should be consigned "Carriage Paid," and addressed "Spares Department," and the nature of repairs or replacements required should in ALL cases be advised in advance by post; at the same time, care should be taken that the labels show from whom the parts have been sent. We cannot hold ourselves responsible for goods sent to us without advice or with nothing thereon to identify them by.

CAR REPAIRS

Attention is drawn to owners, that by placing their Orders for Spare Parts direct with their Local ' STANDARD ' Agents, this will greatly facilitate matters, as our Agents throughout the country carry representative stocks.

A Service School has been established where Agents' Representatives are trained in the upkeep and maintenance of ' STANDARD ' Cars. Therefore, customers should avail themselves of the service which our Agents are able to give in all matters relative to service and maintenance.

We maintain Service and Repair Depots at Coventry and London, where Customers' Cars can be taken either for adjustments, or overhauls to estimate.

Payment for car repairs must be made when machines are collected.

Our Staff drive Customers' cars at the owners' risk and responsibility.

We take every precaution against fire, but we do not accept liability for any injury which may be caused by fire to any Motor Car or part thereof entrusted to us for any purpose whatever.

The following information will enable owners of ' Standard' Light Cars to get into immediate communication with the Company's various departments.
